## ACCESSORIES CRF1100L AFRICA TWIN

### Africa Twin reaches new heights

In 2017, the Africa Twin broke the record for the highest altitude reached by a twin-cylinder motorcycle. After 5 days of acclimatisation, a team of 5 riders piloted the Africa Twin onto the slopes of the world's highest active volcano, the Nevado Ojos del Salado – located between Argentina and Chile. Reaching 5,965 metres above sea level, the international team completed its ascent within 24 hours with Africa Twin specially equipped with Termignoni exhaust, revised final sprockets, new Metzeler MC360TM tyres and a range of Honda genuine accessories. Their route took them – in temperatures as low as minus 5 degrees Celsius – through broken asphalt, gravel, mud, sand and finally stretches of ice pockets known as 'penitentes', underlining once again the Africa Twin's credentials as the best-performing off-road motorcycle in its class.

# TRANSALP

## ACCESSORIES XL750 TRANSALP

### The original Transalp

The original Transalp, introduced in 1986 with a 583cc V-Twin engine, is something of a legend. And as testament to the sheer quality of its build and timelessness of its design, many can still be seen on Europe's roads today.

This is just what the new XL750 Transalp is built to do, and a legend of adventure touring is thus reborn.

## ACCESSORIES X-ADV

### Tougher than the rest!

During the 2019 Gibraltar Race, a 7,000-km all-terrain rally from Baltic Sea to Atlantic Ocean, Renato Zocchi steered an X-ADV to the Class 2 victory. The rider put also himself as seventh overall in the event, beating out the competition of purpose-built dirt bikes and adventure tourers. While his X-ADV was specially prepared with extra wheel travel and ground clearance, Zocchi kept the footboards and drove its DCT version on Gravel mode.

Another proof that no matter where you want to go, the X-ADV is tougher than the rest to get you there!

# NC750X

## ACCESSORIES NC750X

### Do you really need a left lever to enjoy riding?

The Dual Clutch Transmission made its worldwide debuts for motorbikes in 2010 with the Honda VFR 1200. Now entering its 3rd generation and downsized to suit mid-displacement bikes, the DCT is completely different from the belt-type transmissions used by most scooters: it is structurally a conventional 6-speed gear ratio transmission, yet electronically controlled when changing speeds. Keep the fun of a manual transmission; enjoy the comfort of an automatic one!

### Is reliability supposed to be boring?

It's not rare to find CB500 proudly boasting more than 300,000 kms (more than 186,000 miles), but the long-time favourite of the couriers and the driving school is much more than a workhorse. Started in France in 1996, the CB500 Cup spread across Europe quickly and helped young talents such as Sebastien Charpentier or James Toseland to make a name by themselves, on a budget.

## ACCESSORIES CB650R

### Where are these beautiful curves coming from?

One of the most distinctive attributes of the CB650R is its swooping four-into-one exhaust system. This beautiful design is a tribute to another iconic Honda: the CB400F also known as the CB 400 Four. Produced between 1975 and 1977, the CB 400 Four caused quite a stir thanks to its café racer look. Delivering only 37 bhp (28 kW) at 8,500 rpm and 24 lb-ft (33 N·m) at 7,500 rpm, its four-in-line engine was not meant to take the racetracks by storm. Yet, back in the late 70', some versions upgraded to 492cc were capable of 13,500 rpm and producing an estimated 60 bhp (45 kW).

## ACCESSORIES REBEL 1100

## Do you really need a clutch lever?

The Dual Clutch Transmission made its worldwide debuts for motorbikes in 2010 with the Honda VFR 1200. It has been constantly improved since then. DCT allows the rider to focus on accelerating, turning and braking, rather than gear shifting. This increases confidence and control for the rider. The DCT is completely different from the automatic transmission used by most scooters: it is structurally a conventional 6-speed transmission electronically controlled.

## ACCESSORIES REBEL 500

### From one Rebel to another?

Since 2013, The Bike Shed London is a motorcycle exhibition like no other celebrating the creative culture around the custom bike scene. It is there that Keita Mikura, the Rebel's Project Leader, was inspired to create a new kind of machine for young riders, leaving free space for further customization. In 2017, the Rebel concept became reality and reached another level, thanks to the vision and the craftsmanship of 2 Brits: Dan Gold, a tattoo artist and Russ Brown, a custom bike builder.

## ACCESSORIES CL500

## Street Scrambler

Honda has a long history of getting smaller capacity bikes just right for riders around the world. A combination of easy usability, useful engine performance, affordability and distinct individuality equal motorcycles that, over time, come to mean so much to their owners.

The 1962 twin-cylinder CL72 was one such bike. One of the first true 'street scramblers' it was raced, ridden and enjoyed for years. It proved that a lightweight bike with off-road dynamics was great fun around town and, latterly, the high-barred, high-piped style has become an iconic signature for many 21<sup>st</sup> century riders.

## The Blade that changed how bikes were built.

Aiming to create a high-performance motorcycle that could defeat its own RVF750 in Endurance Road Races, Honda developed an R&D project that led directly to the CBR900RR in 1992. With 128 HP, it was not the most powerful of its time. However, thanks to a dry weight of 185 kg when all rivals were well over 200 kg, the first Fireblade, soon nicknamed "Blade" by the fans, was so easy to control that it seemed to read its rider's mind.

More than 25 years after, the most powerful and nimble Honda bikes keep carrying the Blade legacy.

The CBR900RR Fireblade that started all.

**OIL FILLER CAP**  
**08F72-MKZ-J30**

The Oil Filler Cap is expertly crafted from premium-grade aluminum, ensuring superior quality and precision. It features a vibrant red anodized finish that adds a striking visual element, while the laser-etched HRC logo on both sides of the handgrip enhances its aesthetics. The cap's interior is hollowed out to enhance strength and minimize weight. Additionally, the cap includes a wire-lock hole, commonly found on HRC works machines, making it suitable for circuit riding. With its surface treatment of red anodization, the Oil Filler Cap combines style, functionality, and a touch of racing heritage.

**REAR SEAT COWL**

**08F75-MKR-D10ZA / 08F75-MKR-D10ZB**

Make your motorcycle a racing machine look-alike, with this stylish Single Seat Cowl that also reduces the weight by 120 grams. Replacing the pillion seat easily, this seat cowl cannot be used in conjunction with the Seat Bag. Space available below enables to install a GPS logger (GPS operation not guaranteed).

Available in the following colours:

- 08F75-MKR-D10ZA - RED \*R380\*
- 08F75-MKR-D10ZB - BLACK \*NHB01\*

**WHEEL STRIPE TRICOLOUR SET**

**08F70-MKZ-J30ZA**

The Wheel Stripes set not only features the iconic Honda Racing logo but also enhances the overall racing aesthetic of the bike's undercarriage. With a single unit, these stripes can be easily installed on the bike, making it a convenient and versatile accessory. Perfect for enthusiasts looking to elevate the racing appearance of their motorcycle, the Wheel Stripes set adds a touch of style and sportiness to the bike's overall design.

# Performance & Maintenance

**QUICK SHIFTER**

**08U73-MKR-D10**

The Quick Shifter communicates the shift pedal operations to the ECU that controls fuel injection quantities, throttle levels and ignition timings. In return, the ECU removes the load from the transmission gear and allows up and down-shifts without operating the clutch. The Quick Shifter auto-blip functionality guarantees smooth and instantaneous down-shifts, contributing to a stress-free experience for both sporty and long-distance riding. For Fireblade RR-R version only.

**INDOOR BODY COVER**

**08M72-MKR-D10**

Made of a smooth, stretchable material, the bespoke cut of this black Body Cover fits the Fireblade RR-R perfectly and will protect it from dirt. For indoor use only (not waterproof). CBR branding displayed on both the cover and its storage bag. (Product may differ from the pictures displayed).

## Protection

### FRAME SLIDERS SETS

**08P71-MKR-D10**

Incorporating feedback from the RC213V works machine, these Frame Sliders can be mounted to the engine hanger bolts.

Available in black, this set of left and right frame guards do not guarantee the protection of all motorcycle parts should the motorcycle fall over.

### SPROCKET PROTECTOR

**08P77-MKR-D10**

Preventing objects from getting caught in the sprocket, this heavy-duty cover will not impair the bend of the swingarm. Designed to conform to circuit regulations, it also increases the Racing appearance of the Fireblade RR-R.

### TANK PAD

**08P82-MKR-D10**

Shaped to match the curves of the Fireblade RR-R tank, this Pad protects the paint from scratches. Flexible and sporty with its carbon-pattern material, the Tank Pad features the CBR logo and is available in Black.

## Luggage

### REAR SEAT BAG

**08L72-MKR-D10**

This Rear Seat Bag has an adjustable capacity of 15 to 22 litres. It features convenient zipped pockets on each side and a carrying handle. A waterproof inside liner and a rain cover protect your personal items from the elements. Replacing the pillion seat, its base with fasteners keep the bag perfectly attached yet easy to remove, without the hassle of straps or tools.

Load capacity: 4kg.

### TANK BAG

**08L71-MKR-D10**

This Tank Bag can be swiftly attached or removed and will remain firmly secured with its fasteners on the front. Its Honda Genuine design perfectly matches the tank shape to provide a 7 litres capacity without impairing the handling of the Fireblade RR-R. Clear pocket on the top with a slit to route a cable if need be. Zipped pockets on each side, carrying handle and rain cover achieve to make this tank bag the ideal luggage for your Fireblade RR-R.

Load capacity: 2kg.

## Comfort

### HIGH WIND SCREEN

**08R70-MKR-D10ZA / 08R71-MKR-D10ZA**

Developed after wind-tunnel and real-life riding sessions, the High Wind Screen combines increased wind protection and improved motorcycle control. Compared to the standard version, the top of the wind screen is 8mm higher and 40mm further forward. Furthermore, as a Genuine Honda design, it is fully WVTA certified. 2 versions available:

- 08R70-MKR-D10ZA: Smoke
- 08R71-MKR-D10ZA: Clear

### RIDER SPECIAL SEAT (ALCANTARA)

**08R72-MKR-D10**

Made of luxury Alcantara material that provides outstanding soft feel and superb breathability, the Rider Special Seat improves the riding comfort. Protected with a water repellent finish, the beautiful matt texture of this seat and the CBR branding increase the premium feel of the Fireblade RR-R.

Available only in Black / Grey with Red stitching.

### USB POWER SOCKET

**08E72-MKR-D10**

Based on a convenient Type-C connector enabling the plug to be inserted in any orientation, this socket determines automatically the optimal charging voltage for connected devices. It comes with a cap preventing dirt or water to enter while not in use. Installation under the pillion seat. Attachment 08E70-MKR-D10 sold separately.

### Supersport supreme

Inline fours are the apex predators of the sportbike world. This is the kind of engine that our World Superbike and Supersport riders race. And if you've ever ridden a bike like our CBR600RR it's easy to see why. The engines are super-responsive and high revving. The handling is scalpel sharp. And our CBR600RR combines all that with the light weight of a 600-class machine—and light weight is the key to all sorts of performance benefits. A rare breed these days, fours like the CBR600RR are a delight for track-day use, and outstanding on twisty back roads.

## ACCESSORIES

### CBR650R

The CBR650R in action.

### What does HSTC means?

Since 1992 with the ST1100 aka "Pan European" model, Honda equips more and more of its motorcycles with a system called Honda Selectable Torque Control (HSTC). This system monitors constantly the speeds of the front and rear wheels via speed sensors incorporated into the Anti-Lock Braking System (ABS). When the rear wheel begins to rotate significantly faster than the front, the system reduces fuel delivery to the engine and limits rear-wheel slippage. In 2019 with the new CBR650R, Honda applied this technology for the first time to its mid-displacement SuperSport motorcycle. The rider can deactivate it on demand.

### Is reliability supposed to be boring?

It's not rare to find some CB500 proudly boasting more than 300,000 kms (more than 186,000 miles), but the long-time favourite of the couriers and the driving school is much more than a workhorse. Beginning in France in 1996, the CB500 Cup spread across Europe quickly. Since 2014, it is on a CBR500R that young talents try to make a name by themselves, on a budget. Sebastien Charpentier or James Toseland, to name a few, started there.

**RIDE WITH STYLE** Read the owner's manual thoroughly. Get to know your machine and its capabilities. Concentration assists anticipation. Observe other road users' movements. Brake in plenty of time. Always wear a helmet and quality kit, ride fit and NEVER after drinking alcohol. Good roadcraft and courtesy identify the skilled and stylish rider. Honda endorse the law that all helmet visors must comply with BS 4110. Visors that transmit less than 50% of visible light cannot legally be used on the road.

#### CUSTOMIZED PARTS IMPORTANT NOTICE

Please read carefully before purchasing any Customized Parts.

The manufacturer and distributor of each Customized Part guarantees and warrants the function, performance, and quality as detailed with the Customized Part. Customized Parts must be correctly attached or fitted in compliance with the laws and regulations.

It is the responsibility of the vehicle owner/user to ensure the Customized Parts are correctly attached or fitted to help ensure the safe use of the vehicle, the safety of the vehicle user and others.

You must read carefully and follow the instructions in the Instruction Manual/Leaflet attaching/fitting as instructed. Please make sure to conduct an inspection prior to riding the vehicle, in addition to regular maintenance checks.

If you have any queries about the attachment/fitting, please contact the dealership where you purchased the Customized Parts.

If you experience any abnormalities during the ride, please stop immediately and arrange for an inspection at a dealership.

In any absence of any negligence or breach of duty by us, the use of such Customized Parts is at your own risk. This will not affect your statutory rights.

- Prices are Suggested Retail Price for reference only. Actual sales prices are defined at each dealership.
- Prices do not include the vehicle price, or service rate to attach the option parts etc. These will be charged separately.

- The specifications, price etc. of Customized Parts are liable to change without advance notice. Customized Parts may require time for delivery or could be discontinued without advance notice.
- You must read carefully the Instructions and Customized Parts must be attached/fitted correctly as instructed to vehicles and parts on the vehicle as specified in the instructions, and should not be applied anywhere that is not specified.
- To attach/fit the Customized Parts, special treatment (e.g. wiring) may be necessary. Please contact the dealership should you have any queries.
- We cannot guarantee that it is possible to attach/fit a combination of various Customized Parts. Such attachments/fittings may not be possible, or require an extensive level of treatments.
- The Customized Parts are not Honda Genuine parts, therefore although some Customized Parts may be similar to Honda Genuine Parts the Durability, Functionality, Quality etc. may differ.
- By attaching the Customized Parts, there is a risk that engine characteristics or drivability may be affected.
- Certain Customized Parts may require to be attached/fitted at a certified factory or workshop, in this instance we strongly recommend attachment/fitting at a certified factory or workshop. Please contact the dealership for the certified factory or workshop details.
- Any fitting time stated is for reference only. For details as to fitting time, please contact the dealership.
- The exact color of the Customized Parts shown in photos may not match the actual color of the Customized Parts.
